PROFILE

Enthusiastic and adaptable junior web developer with a background in problem-solving and creative thinking.

Strong ability to learn new technologies and apply them in practical settings.

Experienced in fast-paced, high-pressure environments, bringing a collaborative and solution-oriented mindset.

Passionate about continuous growth and development, with a strong interest in Dev-ops.

SKILLS

JS (React, Next.js, TypeScript)

Java

MySQL

MongoDB

ASP.NET/EF Core

Tailwind CSS

Bootstrap

Node / npm

EXPERINCE/SKILLS

RELATED I.T Experience:

Utilized Next.js with typescript and MongoDB to build a dynamic, easily updateable personal portfolio (In progress).

Experience with Git and GitHub for version control, branching, and collaboration, through individual and team-based school projects.

Developed a personal links launchpad app for my web application programming class using ASP.NET, EF Core, MySQL, and Bootstrap, featuring user authentication, a custom API, and an admin interface.

EDUCATION

NSCC

2023 - current
